SLOT EXPRESSED BY THE USER (A GOLD VALUE EXISTS)
Gold pair
(slot, value) to find
Gold value in the list?
yes
no
Recall error
caused by the proposers; the best possible answer is then ∅
Judge answers
one option or ∅
gold value → correct
other value → choice error
∅ → wrong abstention
MEASURED BY
candidate recall
gold pairs whose value is in the list
choice accuracy
correct answers when the value is in the list
abstention when absent
∅ answered when the gold value is not in the list
SLOT NOT EXPRESSED (THE MAJORITY OF REQUESTS)
Unexpressed
slot of the intent
empty list: ∅ without calling the judge
Judge answers
one option or ∅
∅ → correct abstention
a value → false positive
false-positive rate
unexpressed requests that receive a value: the main error of LLM judges
